

253,842
BVA DECISIONS

290,066
PTSD-CODED ISSUES

1992 to 2026
DECISION YEARS

Published Board appeals involving diagnostic code 9411. This is not a measure of initial VA claim outcomes.

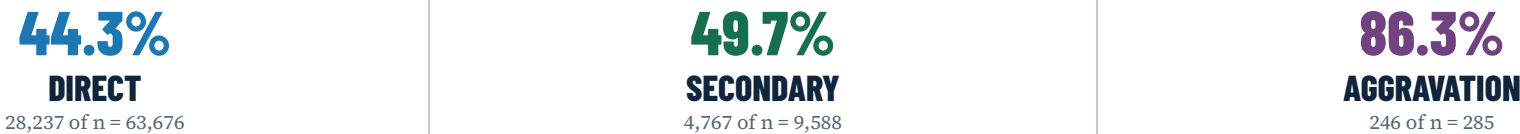

01 ISSUE OUTCOMES

N = 290,066 ISSUES

02 SELECTED CLAIM THEORIES

SEPARATE SAMPLES

Different samples and case mixes. These rates are descriptive, not interchangeable probabilities.

03 DENIAL CLASSES

34,620 DENIED SC ISSUES

NO MEDICAL NEXUS	11,864
NO CURRENT DIAGNOSIS	11,854
NO IN-SERVICE ELEMENT	8,125

31,843 denied issues were assigned to one of these three text-classified groups.

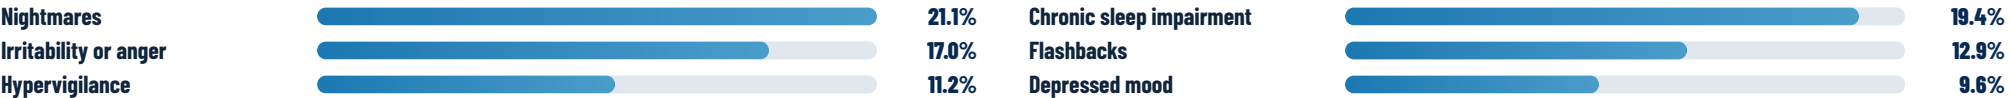

04 BOARD TIMING

N = 40,415

05 SYMPTOMS DOCUMENTED IN GRANTED STRESSOR DECISIONS

N = 27,488 GRANTED DECISIONS

Text matches describe published decisions. They are not required symptoms and should not shape a veteran's account.

KEEP THE DENOMINATOR ATTACHED. Every panel answers a different question using a different population. Do not combine these findings into a personal claim score.
